ARE YOU FACING THIS?

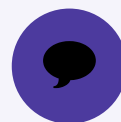

Real Questions Every Unemployed Youth Asks

You are not alone — these are the exact challenges Skillz was built to solve for thousands of youth across India.

Degree in hand, but no job?

Your qualification opens the door — but employers hire for skills they can't see on paper: communication, confidence and professional presence.

Good at your subject, but failing interviews?

73% of rejections happen due to communication and personality gaps — not a lack of knowledge.

“Which career is actually right for me?”

Choosing the wrong direction wastes years of effort. The right career clarity — provided scientifically — changes everything.

Studying hard, but marks won't move?

Hours at the desk isn't the same as progress. Without the right study system, effort alone rarely converts into results.

From Unemployed to Employer's First Choice

Our proven 4-step system, trusted by 500+ youth, closes every gap between you and your dream opportunity.

1

Discover Your Strengths

Aptitude, personality and interest assessments reveal what you're built for — and what employers will value most in you.

2

Build Life & Career Skills

Communication, confidence, emotional intelligence and time management — the skills that separate hired from rejected candidates.

3

Sharpen Your Employability

Resume crafting, mock interviews, professional presence and real-world scenarios make you the candidate they call back first.

4

Land Your Opportunity

Armed with clarity, skills and confidence, walk into any interview or exam hall as the most prepared person in the room.

Not Just Training — Transformation

Here's what makes thousands of India's youth choose Skillz over every other coaching option.

25 Years of Expert Guidance

Certified counselors have guided youth through every kind of career challenge — with deep context, empathy and proven frameworks refined over 25 years.

100% Personalised, Never Generic

Your strengths, your goals, your specific gaps. Every program is customised through our own LMS — you are not average, and your training shouldn't be either.

Results That Actually Show Up

Small batches, capped at 12 students, so your progress is tracked individually — every step, from your first session to your first offer letter.

Mentorship Beyond the Classroom

From your first session to your first job offer, we stay with you — online, pan-India, at your own pace and in your own comfort.

SUCCESS STORIES

Youth Who Changed Their Trajectory

Not stories we wrote — results our students earned through hard work combined with the right guidance.

“

I was unemployed for 8 months after graduation, applying to all the wrong roles. Career counseling revealed my actual strengths — within 3 months of the Employability Program I had 3 job offers.

Anjali Verma

MBA Graduate · Placed at TCS

“

I failed SSC twice before joining Skillz. I was studying hard — but the wrong way. Strategy sessions and daily mock tests changed my approach; I cleared SSC CGL on my very next attempt.

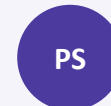

Rahul Kumar

SSC Aspirant · Cleared SSC CGL

“

My grades went from 65% to 92% in one year — but more than marks, I started actually enjoying learning. The study skills training taught me HOW to learn, not just what to read.

Priya Sharma

Class 12 Student · 82% Board Score
